

## Job Description: Technician

Pune | Social Enterprise

### About Sistema.bio

Sistema.bio is a leading social enterprise operating in India, Africa and Latin America, headquartered in Mexico City. Since 2010 we have installed over 4,500 award-winning digesters across four continents. We are expanding across Maharashtra, Karnataka and Gujarat in India - and are looking for passionate individuals to join our team.

Sistema.bio promotes a world where waste is a resource, and farmers are empowered and productive. We design, manufacture and install biodigesters for small and medium scale farmers to convert their waste into economic, health and environmental benefits. To-date our products have treated 6.7m tons of farm waste, enabled over 25,000 people to produce clean energy, and saved over 36,000 ha of trees per year.

By the end of 2021, our goal is to have installed biodigesters for over 200,000 people in 15 countries where they lack access to clean, renewable and cost-effective energy. We want you to be part of this impact story.

### Role Summary

This is a great opportunity to work with a global enterprise and be part of a growing team in India. Reporting to the Technical Coordinator, in this role you will be responsible for installing our biodigesters and gas lines across Mandya District in Karnataka, impacting over 100 farmers every year.

### Key Responsibilities

- Install 10 biodigesters per month according to global Sistema.bio standards.
- Accurately record customer data daily using our mobile based application.
- Adapt local gas lines and biodigesters to meet the farmers need.
- Train the local farmer to use the technical usage of the biodigester.
- Monitor the adoption of the biodigester at each farm following Sistema.bio methodology.
- Communicate with farmers daily to help resolve any technical issues.

### Career Progression and Compensation

- We offer a competitive compensation and benefits package, with an opportunity to grow into a Technical Coordinator with greater responsibilities and a team of Technicians within 24 months. Compensation is not a limitation for the right candidate.

## Does this sound like you?

- You have 3+ years of plumbing, masonry or biodigester installation experience
- You are proficient with plumbing, gas line fitting and mechanical fittings
- You have strong problem solving skills and are always looking to learn
- You are extremely respectful towards farmers and have a strong attitude of service
- You are highly attentive to details and have a track record of maintaining high quality standards
- You are a diploma holder with 3+ years of experience in mechanical fittings (preferred)
- You have experience working with farmers in a rural setting (preferred)
- You are a strong verbal communicator in Kannada (basic English preferred)
- You are mobile savvy and comfortable reading instructions in English
